#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 11 March 2004.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.

## **DETAILED ACTION**

### ***Election/Restrictions***

This application contains claims directed to the following patentably distinct species:

Species 1, Figs. 1-3, representing a single ply roof membrane with the bottom layer embossed with a rectangular base pyramidal configuration.

Species 2, Figs. 4-6, representing a single ply roof membrane with the bottom layer embossed with a hexagonal base pyramidal configuration.

Species 3, Figs. 7-9, representing a single ply roof membrane with the bottom layer embossed with a cone-shaped, circular base configuration.

Species 4, Figs. 10-12, representing a single ply roof membrane with the bottom layer embossed with random longitudinally running designs.

Species 5, Figs. 13-15, representing a single ply roof membrane with the bottom layer embossed with random transversely running designs.

Species 6, Figs. 16-18, representing a single ply roof membrane with the bottom layer embossed with random interwoven basket-weave designs.

The species are distinct because there is structural difference, separate utility for each of them and it is necessary to search for one of the inventions in a manner that is not likely to result in finding art pertinent to the other, resulting in the imposition of a substantial search burden on the examiner.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims appear to be generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
